The ACO Clinic in Carlton offers more specialised Children's Services, including Developmental and Binocular Vision Clinics. Children initially seen at one of the metropolitan sites may be referred back to Carlton for on-going specialist care.

To get access to subsidised glasses under the Victorian Eyecare Service, a child must be listed on a Health Care Card or hold a Pensioner Concession Card. In addition to subsidised glasses, all ACO clinics offer an extensive range of glasses at very reasonable prices for those not eligible for a subsidy.

The ACO bulk bills consultation fees to Medicare, so generally no consultation fee is payable by the patient.
