Revised Guidelines for Glaucoma Management Published

The Optometry Board of Australia (OBA) has published revised Guidelines for use of scheduled medicines. The revised guidelines take effect immediately and optometrists with a registration endorsement for scheduled medicines are required to comply...[Read](#)

Optometry Australia Rises Up Against Frozen Medicare Rebates

Medicare rebates for optometry services, along with services provided by other allied health practitioners, have been frozen by the Abbott Government until July 2018 on top of an almost 5 per cent rebate reduction effective 1 January 2015...[Read](#)

Optometry Australia to Lobby for Glaucoma PBS Subsidy

Optometry Australia will seek a Pharmaceutical Benefits Scheme (PBS) subsidy for glaucoma medications prescribed by optometrists following the release of revised Guidelines for use of scheduled medicines by Optometry Board Australia, which came into effect on 8 December 2014...[Read](#)

Behavioural Optometrists Optimising Growth & Learning

Behavioural optometrists and ACBO Accredited Vision Therapists take a holistic approach to treating a diverse range of children's vision problems that may be due to developmental delay or a result of injury or disease. Using individualised vision therapy programs they work to improve visual comfort and efficiency and to create automaticity of developmentally delayed visual skills...[Read](#)
